

Bills in Progress Related to the MLULC Recommendations

Urban Redevelopment

<u>Page</u>	<u>Identifier</u>	<u>Description of the recommendation:</u>	<u>Status of the recommendation::</u>
32-33	4.1a	Locate public offices and facilities in urbanized areas by reusing existing buildings or constructing new where infrastructure is adequate.	In progress
	Related Actions	Description:	Status of the action
		DEQ has located two new public offices in urban sites that were previously brownfields. No data is currently available on other state office relocations.	Agency action in progress
		Variation from MLULC Recommendation	

<u>Page</u>	<u>Identifier</u>	<u>Description of the recommendation:</u>	<u>Status of the recommendation::</u>
36	4.3d(6)	Expand the Michigan IDA program to foster homeownership.	In progress
	Related Actions	Description:	Status of the action
		MSHDA is a member of and financial contributor to the Michigan IDA Partnership, an effort spearheaded by the Council of MI Foundations providing a 3:1 match toward home purchases and a 2:1 match toward higher education and business start-up costs.	Complete
		Variation from MLULC Recommendation	

Land-Based Industries

<u>Page</u>	<u>Identifier</u>	<u>Description of the recommendation:</u>	<u>Status of the recommendation::</u>
44	5.1a(1)	Complete new round of aerial imagery and update the Michigan Natural Features Inventory.	In progress
	Related Actions	Description:	Status of the action
		Six state agencies partnered with MSU to raise funds for an update of statewide aerial imagery.	Complete
		Variation from MLULC Recommendation	
		Data has been processed and delivered to the Center for Geographic Information. It is available for download although appropriate software is required.	

<u>Page</u>	<u>Identifier</u>	<u>Description of the recommendation:</u>	<u>Status of the recommendation::</u>
44	5.1b	Help communities plan and market by developing a statewide historic resource GIS database and incorporate it in the Michigan Geographic Framework.	In progress
	Related Actions	Description:	Variation from MLULC Recommendation
		The CGI Web site lists properties on the national and state registries of historic places, with imagery, mapping, and searches available.	Status of the action Complete

<u>Page</u>	<u>Identifier</u>	<u>Description of the recommendation:</u>	<u>Status of the recommendation::</u>
44	5.2a	Support public and policymaker education and outreach that identifies how the natural environment contributes to prosperity and quality of life.	In progress
	Related Actions	Description:	Variation from MLULC Recommendation
		"Filling the Gaps" explains the local role in environmental and natural resources protection.	Status of the action Complete

<u>Page</u>	<u>Identifier</u>	<u>Description of the recommendation:</u>	<u>Status of the recommendation::</u>
46	5.6b	Continue to support existing incentive-driven, value-added agriculture programs: expand direct farm marketing and agritourism.	In progress
	Related Actions	Description:	Variation from MLULC Recommendation
		The Select Michigan program debuted in March 2003 to stimulate demand for food products grown and processed in Michigan, including organic products. It debuted in Grand Rapids in 2003 and pilot efforts extended to Detroit in 2004 and 2005.	Status of the action Agency action in progress

<u>Page</u>	<u>Identifier</u>	<u>Description of the recommendation:</u>	<u>Status of the recommendation::</u>
48	5.12a	Establish statewide policies to balance shoreline protection with commercial and recreational economic activity; implement through local jurisdictions.	In progress
	Related Actions	Description:	Variation from MLULC Recommendation
			Status of the action

DEQ's Coastal Communities Program is launching a workshop series for local government on environmental protection through planning.

The MLULC recommendation calls for statewide policies to balance shoreline development and conservation; the workshop series does not set policy or necessarily serve the goals identified by the MLULC.

Complete

Planning and Development Regulation

<u>Page</u>	<u>Identifier</u>	<u>Description of the recommendation:</u>	<u>Status of the recommendation::</u>
62	6.19	Coordinate interagency decisions, collect stakeholder input, and secure federal funds to advance statewide land use goals.	In progress
	Related Actions	Description:	Variation from MLULC Recommendation
		MEDC hosts an interdepartmental work group that includes most of the departments dealing with development (DEQ, DMB, MDOT). They meet once a month.	The IWG is not specifically charged with addressing land-use issues. Elements of the recommendation such as securing stakeholder input and pursuing federal funds are not addressed.

Infrastructure and Community Development

<u>Page</u>	<u>Identifier</u>	<u>Description of the recommendation:</u>	<u>Status of the recommendation::</u>
72	7.3b	Promulgate a statewide code for on-site disposal and community water and sewer systems.	In progress
	Related Actions	Description:	Variation from MLULC Recommendation
		MDEQ convened an advisory group to recommend content for a statewide sanitary code for onsite disposal systems. A white paper was published in October '04; legislation is required for implementation. SB 1495 of 2008 was responsive but did not progress.	
			Status of the action
			Complete

<u>Page</u>	<u>Identifier</u>	<u>Description of the recommendation:</u>	<u>Status of the recommendation::</u>
73	7.5a	When developing the statewide transportation plan, consider statewide plans for biodiversity conservation, habitat protection, water quality, and other environmental impacts.	In progress
	Related Actions	Description:	Variation from MLULC Recommendation
			Status of the action

MDOT participates in a trails group with MDNR and provides financing for an FTE to review environmental permitting issues.

MDOT's interaction with MDNR and MDEQ is not following up on statewide environmental plans - these are yet to be created.
